WARRANT FOR TOWN MEETING.

THE STATE OF NEW HAMPSHIRE.

To the Inhabitants of the Town of Amherst, in the County of Hillsborough, in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at Town Hall, in said Amherst, on Tuesday, the twelfth day of March next, at ten o'clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.
2. To raise such sums of money as may be necessary to defray town charges for the ensuing year, and make appropriation of the same.
3. To raise such a sum of money as may be necessary for repairing highway and bridges.
4. To raise such a sum of money as may be necessary for school purposes.
5. To raise such a sum of money as may be necessary for the maintainance of town poor.
6. To see what sum of money the town will raise and appropriate for the observance of Memorial Day.
7. To see what sum of money the town will vote to raise and appropriate for the Public Library.

8. To see if the town will vote to enlarge the Chestnut Hill's Cemetery.

9. To see if the town will vote to lay out a highway, beginning at a point near H. M. Hayward's, leading across to the Manchester road, near Frank W. Noyes lane.

10. To see if the town will vote to lay a suitable pipe from the dry well at school house to L. F. Bills', and from there an open drain to brook.

11. To hear the reports of agents, auditors, committees, and other officers heretofore chosen, and pass any vote in relation thereto.

12. To transact any other business that may legally come before said meeting.

Given under our hands and seal this twenty-third day of February, in the year of our Lord, 1901.

REPORT OF THE BOARD OF EDUCATION, FOR THE YEAR ENDING MARCH 1, 1901.

At the annual school meeting held March 22d, 1900, Rev. A. J. McGown was re-elected a member of the Board of Education for three years. W. W. Sloan was also elected Treasurer of the school district.

The Board organized as follows: Rev. A. J. McGown, President, Rev. H. B. Marshall, Secretary, W. W. Sloan to attend to repairs and the furnishing of fuel, etc.

The Secretary was appointed purchasing agent of school supplies.

The supervision of schools has been divided between the President and Secretary. At the school meeting, a generous sum was appropriated for the support of schools and repairs, enabling the Board to provide for three terms of eleven weeks in all the schools. With a few exceptions this plan has been consummated.

On account of sickness of the teacher during the spring term, No. 3 was suspended at the expiration of four and three-fifths weeks. After the lapse of a period demanded by the Board of Health, the scholars that so desired were furnished conveyance to the village schools for the remainder of the term. At No. 7 the spring and fall terms were complete under the same teacher. A new teacher was secured for the winter term, who, in order to enter the Training school at Nashua in February, requested the Board to release her at the expiration of eight weeks,

and her request was granted, there being only three scholars in regular attendance at the time of suspension. After having been suspended for some time, the school at No. 9 was opened and continued without interruption during the spring term. The same teacher was put in charge of the school at the beginning of the fall term, but at the expiration of three weeks it was deemed wise to discontinue it, as the number of scholars in attendance was found to be below the number requisite to insure the maintaining of a school.

The scholars belonging to this school were instructed to attend No. 7, for which they would be entitled to something in the way of remuneration.

How this shortage is to be compensated has not been determined. It is the desire of the Board that all shall be fairly treated, and it holds itself in readiness to make up deficiencies in one way or another, whenever it can consistently do so.

The High school, from the proceeds of the Nutt fund for whose benefit alone this fund can be used, was given an extra week at the end of the spring and winter terms, making thirty-five weeks in all.

The other schools have all enjoyed the full period of thirty-three weeks under the same instructor, and in the opinion of the Board the year has been a successful one.

The village schools being open to all comers call for special mention.

The Primary school, which for six consecutive terms has been under the skilful management of Miss Curtis, will compare favorably with schools of the same grade anywhere. The work accomplished is honest, thorough and painstaking. Unless some other provision for an intermediate grade can be made, the scholars must be held in this school longer than they have been hitherto, for their advancement at the completion of the studies be-

longing to this grade, is not sufficient to admit them properly to the school in the room above

If a suitable building or room was at its command, and scholars were forthcoming, the Board could make it profitable for all concerned to establish an Intermediate school. In the High school, at the expiration of another term, Miss Fulton will have completed as Principal five successive years. This is all that need be said as to her efficiency. With the aid of a competent assistant, she has been enabled to secure excellent results. Within the writer's knowledge, the school has never been better than it is today.

The present may be regarded as one of its most successful years. Its number has been greater than for several years, having been materially increased by scholars from the rural districts who have availed themselves of its advantages at their own expense. This feature has greatly contributed to its interests.

In June last, a class of six was graduated. The exercises took place in the Town hall. These consisted of prayer, music, and the usual parts assigned to two representatives of the class, together with an address by Principal J. Willard Brown of the Emerson school, East Boston, the awarding of diplomas, and the distribution of the Lawrence prizes. These exercises were attended by a large number and enjoyed by all. The present senior class is larger than either of those which have been graduated, and if the plans which are making can be matured, it will be retained for an additional year; so that, hereafter, classes graduating will have the advantage of at least three full years of High school studies instead of two, and will thereby be competent to enter the senior year of any High School or Academy.

This will contribute materially to the knowledge and discipline of those whose education will cease with their

connection with this school, and will save an entire year to those who look to other institutions for the completion of their studies. The Board earnestly desires that the scholars belonging in town will patronize the Home School, will enter it, and remain until the completion of the course.

The matter of consolidation annually occurs. Without a much greater seating capacity than is now available, consolidation could not at once be made general.

As regards those districts, however, in which several scholars are already attending the village school, it would be an easy matter to provide conveyance for all, thus saving to those who are now conveying their children or boarding them in the village the trouble and expense this procedure entails. The parents who live in those districts in which scholars are too few to make it profitable to operate a school, must consent to have their children conveyed to some other school as the easiest and only way out.

It is pertinent in this connection to say that parents should not undertake the placing of scholars themselves.

A certain amount of attainment is necessary in order to admittance to the High school, and the Board of Education should be consulted in all cases where such attainment is doubtful.

REPAIRS, FURNISHINGS, ETC.

The following school buildings have received attention in the way of repairs and improvement :

No. 1. The old stoves have been removed and an excellent furnace has been substituted to the comfort and satisfaction of all. This was a much-needed appliance, and the Board is happy to announce that it has been provided, and is in every way a success. The grounds in connection with the building have been carefully graded,

which greatly improves the general appearance, and contributes to the comfort of all who in wet weather are obliged to pass through them.

No. 2. A new window has been substituted for one that was shattered.

No. 3 has been painted outside and inside. The room has been newly papered and new curtains have been adjusted.

At No. 5 the shed which has been for a long time an unsightly feature has been removed, and a new one substituted. Curtains have also been provided.

No. 8 has been painted inside and papered.

No. 9 has been painted.

No. 10. Painted outside.

The High school has been provided with a copy of The International Dictionary and a convenient holder therefor, so that teachers and scholars now have an up-to-date and exhaustive reference book always at hand.

A substantial and tasty cabinet, which for some time has been in process of construction, is now completed and will be in place before the opening of the spring term. This cabinet will serve as a safe repository for apparatus in physics, and specimens in natural history, etc., which the enlargement of the curriculum will demand.

REPAIRS NEEDED.

All the rooms should be white-washed at least once in two years.

No. 2 is calling loudly for general repairs.

DISTRICT SUPERVISION.

It is the desire of Superintendent Folsom that the matter of District Supervision be re-submitted to the people. It will be well if everyone who desires to express his opinion in regard to the scheme by his vote,

will think the matter over, so that he will be able to vote intelligently.

ATTENDANCE.

The whole number of scholars found enrolled upon the school registers during the year ending March 1st, 1901, between the ages of five and fifteen is 141. Above fifteen, 8. Less than five, 6. The following tables give a summary of attendance as appears in the school registers :

The Library has been kindly remembered by its friends, both within and without the town. The trustees would especially acknowledge the receipt of a copy of the Century Dictionary, (in six volumes,) with a solid, beautiful, and very convenient case to contain it, from Mr. Edward B. Eaton; also a Bible, printed in 1806, given to the Congregational church of Amherst in 1816 by Mr. Richard Boylston, and used on the pulpit of that church until 1859, from Mrs. George A. Spalding.

The following books, magazines and pamphlets have been donated by the persons whose names are set opposite the title :

LIST OF MAGAZINES TAKEN.

Century, Cosmopolitan, Granite Monthly, Harper's, Little Folks, Munsey, New England, Review of Reviews, Scientific American, Scribner's, St. Nicholas, Success, Talks and Tales, Woman's Home Companion, Youth's Companion.

REPAIRS.

During the year a new fence has been built on the south boundary of the grounds, of material and pattern to correspond with those on the east and west sides, and painted.

One coat of paint has been applied to the tin roof of the Library.

NEEDS.

The ground at the north end is very uneven; too much so for the use of a lawn mower, and the grass is thin and of poor quality. It is desirable that the surface should be

removed, loam substituted, a uniform grade given to the ground, and lawn-grass seed sown.

The wooden hitching posts are decaying ; one having rotted away entirely. It would be well to substitute six granite posts.

The building is in good condition.

Appended are the Report of the Treasurer, a list of the magazines taken, and a list of the books added to the Library.

Very respectfully,
THE TRUSTEES.
